SUMMARY

Third-year Business Computing student at ESSECT, ranked 1st in class in Years 1 and 2, seeking an end-of-studies (PFE) internship in full-stack development. Hands-on experience with Angular, Spring Boot, React, Java and SQL, including a leave management system built during a full-stack internship. Certified in Data Analytics with Microsoft Power BI.

EDUCATION

Bachelor's Degree in Business Computing (Licence en Informatique de Gestion) — **Sep 2024 – Present**

École Supérieure des Sciences Économiques et Commerciales de Tunis (ESSECT), Tunis, Tunisia

- Ranked 1st in class (Major de promotion) in Year 1 and Year 2.

Baccalaureate in Mathematics – Lycée Bardo, Tunis, Tunisia — **Jun 2024**

EXPERIENCE

Full-Stack Developer Intern — **Jul 2026 – Aug 2026**

Be Wireless Solutions (BWS), Tunisia

- Designed and developed a leave (days-off) management web application for the company's internal use.
- Built the user interface with Angular and the business logic and REST APIs with Spring Boot.

Global Volunteer – English Teacher — **Jun 2025 – Jul 2025**

AIESEC – Melek Anne Kres, Gaziantep, Türkiye

- Taught English to children in an intercultural setting as part of an AIESEC Global Volunteer project.
- Designed interactive learning activities adapted to the children's level.

PROJECTS

Recruitment Desktop Application with AI Assistant — **Apr 2026**

Team project – Java Certification course | **Tech:** Java, JavaFX, MySQL, Gemini API, OkHttp, iText

- Built a multi-role JavaFX app (candidate, recruiter, admin) managing job offers, applications and users with MySQL.
- Integrated the Gemini API (OkHttp) as an AI assistant for career coaching, CV analysis and mock interviews; PDF export with iText.

ChallengeHub – Collaborative Web Platform — **Mar 2026**

Team project – Web Programming course | **Tech:** PHP, MySQL, Bootstrap, Git, GitHub

- Developed a web platform to create challenges, submit entries, vote and comment.
- Implemented secure authentication and a relational MySQL database, with a responsive Bootstrap interface.

AI Chatbot Web Application — **Dec 2025**

Team project – AI Fundamentals course | **Tech:** React, Vite, Python, Flask, Gemini API, Git, GitHub

- Created the conversational interface with React and Vite.
- Designed a Flask REST API handling user–chatbot exchanges with Google Gemini generative AI.
